Editor Logan Republican:

Your brief article in Tuesday's issue of The Republican regarding the advisability of building a hotel in Logan canyon on or near the property owned by George Q. Rich, certainly will meet with general favor, as there are thousands of people from Logan and other places in and out of Cache county who spend much of their time in summer in Logan canyon. And that canyon is truly one of the finest natural resorts in the world, its pure crystal waters, beautiful mountain scenery, its excellent fishing and hunting, in fact it is ideal in every way.

But how about the effort which is being made by one of our townsmen to deprive us of that beautiful resort by turning the river out of the natural channel and into a pipe line or flume just for speculative purposes. Will the people be obliged to submit to such an outrage? To do that would show a wanton disregard for the feelings of the whole community and any one who would do that for a few paltry dollars would sacrifice the respect and sure incur the ill will and lasting contempt of both old and young and would certainly lose a thousand times more than he could gain, if he appreciates the respect and confidence of the community in which he lives. The matter is the talk of the city and people are asking what the Commercial Boosters and city council are doing to prevent that calamity.

A SUBSCRIBER.

Dr. H. P. Emels, also a former resident of Logan, is visiting in the city for a few days. Dr. Emels has just returned from the east where he has been doing post graduate work and stopped off in Logan to visit former friends and acquaintances before returning to his home in San Diego, California.

Mr. E. P. Bacon of Boise, a former resident of Logan is again in our city for a short stay. Mr. Bacon and family have just returned from a two months visit in California, and are convinced that Logan's climate is more desirable this season of the year than the much boasted of California climate. Mr. and Mrs. Bacon have rented the Theta Sorority home on First East and expect to be with us for two months or so. When seen on the street yesterday, Mr. Bacon had some very forcible ideas of what Logan might do with a little more of the boosting and get together spirit applied.
